Read About Us!

POPULAR SCIENCE **"These Data Scientists Are Disrupting Disney World's Long Wait Times"**

"How we rode 17 attractions in one day, with time to spare..." **GeekWire**

How We Did Yesterday **Sunday, September 22, 2019**

Our wait times predictions were within **3 minutes** for the following attractions: [Finding Nemo Submarine Voyage](#) (-2 min)

We were within **5 minutes**: [Luigi's Rollickin' Roadsters](#) (-4 min)

We were within **7 minutes**: [Jungle Cruise](#) (-7 min)

We were within **10 minutes**: [Gadget's Go Coaster](#) (-10 min), [Dumbo the Flying Elephant](#) (-10 min), [Alice in Wonderland](#) (-9 min), [Mr. Toad's Wild Ride](#) (-8 min)

The attractions above come from our core group of 30 attractions used in calculating crowd levels. To assess accuracy, we calculate the average posted wait time between 11 AM and 5 PM and compare that to our predicted average wait time for that time period. A negative number means that the average wait time was lower than our prediction; a positive number means the average wait time was higher than our prediction.

The Crowd Calendar (1 means lowest crowds, 10 means highest)
